

RECIPROCITY WITH SOUTH AMERICA.

When the McKinley bill was introduced in Congress it was antagonized by James G. Blaine, then Secretary of State, who said that it would not make a market for one more barrel of pork or sack of flour. Mr. Blaine then proposed reciprocity, that is a free interchange of commodities between the United States and the Central and South American States. The advocates of the McKinley bill incorporated the reciprocity clause proposed by Mr. Blaine in the measure and it became a law. A few of the South American Republics availed themselves of the reciprocity clause and by proclamation of President Harrison, commodities from those countries were admitted free of duty.

Now Senator Dominguez, Charge d'Affaires of the Argentine Republic at Washington, sends a communication to the United States Senate bearing upon the relations between the United States and the Argentine Republic as affected by the tariff it is proposed to place on wool under the Dingley revenue tariff bill. To prevent an interruption of the good feeling now existing between the two countries and to avoid disturbing commercial relations, he asks whether it could not be suggested in considering the bill, that the duty should not apply to South America. He suggests that wool importations from South America are comparatively small and instances the statement of the National Wool Growers' Association that their chief complaint is against Australian wools. He suggests that the desired ends could be accomplished by exempting South American countries from the operations of the bill, and adds that in this way the relations of the United States with sister Republics would not be affected. The Argentine Republic would supply to a moderate extent the wants of this market while the United States would take advantage of the field opened to American manufactures.

Senator Dominguez also calls attention to the fact that the principal European nations admit South American wool free of duty and asks if Congress desires friendly and close relations between this country and other American States, how it can pass a measure which will exclude from this market the products of South American countries?

As Mr. Blaine is in his grave, the Maine statesman now in the ascendancy in Washington will probably pay very little attention to his reciprocity scheme, which seems to be as dead as its originator, and the attempt of Senator Dominguez to resuscitate it will doubtless prove unavailing. However as his communication has been referred to the Finance Committee of the Senate it may be heard from again in that body. By a reciprocity treaty with the Hawaiian Islands their sugar product was admitted free when the duty on sugar from other countries was two cents per pound, and a similar treaty regarding wool may be made with the Argentine Republic.

THE NEW YEAR.

The year 1896 of the Christian era has dawned, and let us hope that to each and all it will prove a brighter, more prosperous and happier year than that which expired at midnight.

The custom of celebrating the New Year is general and ante-dates Christianity. It was observed by the Hebrews and other Oriental people in the remote past. The Romans dedicated the first day of the year to Janus, for whom they named the first month of the year. The god was represented with two faces, the one dark and gloomy, as an emblem of the history of the past; the other bright and smiling, as a symbol of a promising future. Rome also introduced the custom of making presents on the first day of the year, which at first were flowers, which subsequently gave place to gifts of gold, silver and jewels, limited only by the purse or fancy of the giver. This custom is becoming obsolete in the United States, probably because of the hard times and scarcity of money.

The year 1896 will be an eventful one in the United States. A President is to be elected who will administer the laws for four years and a Congress which will enact laws for two years. As the business depression which prevails throughout the country is attributed by many well-informed persons to the financial legislation which has demoralized the oldest money metal of which there is record, it behooves the people to consider whether it is their duty as citizens of this great Republic to sustain this legislation by voting for the parties that are responsible for it. If the masses give this matter due consideration and act for their own interests the year 1897 will dawn upon the country with brighter prospects than any New Year since 1873.

SILVER MEN UNITE.

A complete consolidation of the three national silver organizations has been effected. The consolidated organization will be known as the American Bimetallic Union, and its headquarters will be at Chicago, with branches at Washington and other large cities. It is the purpose of the organization to press the campaign of education with the utmost vigor in all parts of the country where the silver question is not understood.

A conference of prominent silver men will be held at Washington, January 22d, at which a plan of campaign

will be outlined which will have an important bearing upon political events next year. It is probable that a call will then be issued for a national convention to nominate a Presidential ticket and adopt a platform which every man who believes in the free coinage of gold and silver at the historical ratio of 16 to 1, can conscientiously support.

MORE BONDS.

What the Gold Trust Agrees to Do. New York, December 31.—The Post in the last edition says: A contract was signed this morning by all the members of the new bond syndicate, subject to the formal acceptance of the Government. The syndicate agrees to furnish eleven and one-half million ounces of gold, amounting to about \$200,000,000 in gold, the Government to take half this sum first and have the option of taking the other part and to deliver four per cent. thirty year coin bonds at about the same price as paid for the last issue of bonds.

The managers of the syndicate are to receive a commission of one per cent. The price at which the last bonds were taken was 104.49, at which they yielded 3 1/4 per cent interest.

CONGRESSIONAL PROCEEDINGS.

Sherman Introduces a Resolution. WASHINGTON, December 31.—In the Senate Sherman introduced a resolution declaring that the reduction of the Redemption Fund was illegal and requiring its restoration to one hundred millions in gold. Mitchell advocated the House Tariff bill, saying that unless the Wilson free tariff on wool be changed the sheep industry of the Pacific Coast would be annihilated. He said that the Tariff bill passed by the House would increase the revenue \$40,000,000 yearly.

The session of the House to-day was purely formal, lasting only a few minutes. The House adjourned until Friday.

The Brown-Davis Scandal.

SAN FRANCISCO, Dec. 31.—In an interview to-day at Brown's house, Miss Overman, accused by Mrs. Davidson of improper relations with Rev. Dr. Brown, said that she had been the tool of Mrs. Davidson. When she went to live in Mrs. Davidson's rooms she said that Mrs. Davidson told her that she had literary ability, and that together they would write sensational stories for the newspapers.

At Mrs. Davidson's investigation, Mattie Overman said she went to the city editor of the Chronicle, offering to tell a story on a prominent man for \$1,000, but she did not know who the man was, Mrs. Davidson not telling her his name. She said it was a mistake of the editor in saying that she was the injured person in the story.

TELEGRAPHIC NOTES.

Three men were killed by a boiler explosion in the Law colliery at Avoca, Pennsylvania.

A meeting of the Senate Finance Committee will be held Thursday to consider the House Revenue and Bond bills.

The steamer James G. Blaine struck a snag and sunk in 100 feet of water in the Monongahela river at Masontown, Pennsylvania.

P. K. Grullit shot and probably fatally wounded Hon. J. Ross at Hardsburg, Cal. The shooting was the outcome of a long-standing feud.

Two passenger trains collided between North Bend and Delphi on the Baltimore and Southwestern, killing two men and injuring six others.

The London papers regard Senator Sherman's comments on the President's message on the Venezuelan question as a plain warning that the danger of war has not yet passed.

The stage between Ukiah and Harris, Humboldt county, was robbed yesterday by masked highwaymen. They took Wells, Fargo & Co.'s treasure box and the registered mail packages.

The Populists, with the exception of Kyle, refused to vote at the reorganization of the Senate, and the Republicans by a vote of 30 to 28 carried the resolution, Kyle voting with the Democrats.

Palo Dominguez and Ramon Real, arrested for cattle stealing at Santa Paula, California, have made a full confession. They admit having stolen cattle from ranches of well-known cattlemen. Five head have been found. More arrests are expected. The cattlemen are aroused and will employ special counsel to prosecute the thieves.

A cold wave and high winds prevailed Monday night and yesterday morning along Lake Erie. At Cleveland the wind reached a velocity of 42 miles an hour; at Dunkirk the velocity of the wind was 75 miles an hour; at Pittsburg it was 32 miles an hour, and in New York it was 72 miles an hour.

Senator Jones presented an amendment to the House Bond bill. It provides that any holder of bullion who is a citizen of the United States may tender the same to the Secretary of the Treasury and have it coined into silver dollars, the seigniorage to be the difference between the coinage and market value of the bullion in New York for the cancellation of all bank notes of less than \$10, and directing the Secretary of the Treasury to coin the silver bullion in the Treasury into silver dollars, to be used in redeeming the Treasury notes issued for the purpose of purchasing silver bullion under the Sherman Act, and the redemption of greenbacks in either gold or silver and for the redemption of the Act of 1878.

Justice Court.

The preliminary examination of Lee Brooks on a charge of obtaining money under false pretenses was concluded yesterday, and the defendant was held to answer before the Grand Jury. He was then charged in company with I. Sweiser and W. Jordan with conspiracy, and the trial of the defendants by a jury was called immediately. Jordan was acquitted, but Brooks and Sweiser were found guilty and will probably be sentenced Friday.

Schools Reopen.

The public schools will reopen to-morrow morning. All pupils should be promptly on hand.

Only on a few occasions has the Pavilion presented such a scene of animation, youth and beauty as was seen at the ball given by Monumental Hose Company No. 6 last night. There was an immense crowd of young people and each participant in the merry dance seemed to enjoy every moment of the evening. The Hose boys wore their dress uniforms and did everything possible to make their guests feel at home and have a good time. The music furnished by G. Hoskins, consisting of eight pieces, Professor Zimmer of Virginia assisting, was excellent and was highly complimented by the dancers. S. J. Hodgkinson had charge of the floor, the Hose boys acting as his lieutenants, and everything moved like clock-work.

After 12 o'clock the gentlemen turned the management over to the ladies, and the party was conducted as a leap year dance. Miss Kate Mayberry and a corps of young ladies took charge, and the dance was continued until the early morning hours.

It is said that many plans for the future were formulated in the "wee sma' hours" after the ball and that the young ladies were the principal spokesmen in the affairs, it being their privilege to pop the question during 1896, and they began early in the year.

THE U. S. COURT.

It Takes a Recess for an Indefinite Period.

There was a large crowd at the U. S. Courtroom yesterday, says the Appeal, as it was whispered about that there would be some more sensational arrests. After some unimportant business was disposed of, however, the U. S. District Attorney asked for a recess for some time in front of the building discussing the probabilities of the next arrests. The air was full of gossip of new evidence on somebody, for it was evident that the Court would not have adjourned until Monday if it did not expect some more work in the Brule line, and the vague, indefinite recess had a look as if the Court was holding itself in readiness to get a movement on at a moment's notice. The general idea was that Uncle Sam is fixing his old flint-lock, getting ready to bag some more game, and is carefully keeping his powder dry, as well as laying in more ammunition.

The Secret of Good Crops.

The modern farmer is not content to use the antiquated tools and methods of his fathers. In this age of keen competition, the farmer who wishes to prosper, needs and gets the most improved farming implements; and by reading the best agricultural literature, he keeps in touch with the spirit of progress that pervades our farming communities. He is particular, also, in regard to the kind of seed he plants and the manner of planting it. The seeds must be of highest fertility and grown from the highest cultivated and most profitable varieties of stock. The great seed firm of D. M. Perry & Co., Detroit, Mich., fully appreciate this fact, as is attested by their progressive business methods and the quality of the seed which they supply farmers and gardeners through the dealers all over the country. The reliability and fertility of their seeds are proverbial, and the largest seed business in the world has been created by their sale. In evidence of this firm's knowledge of the wants and requirements of planters, large and small, is Perry's Seed Annual for 1896. This book is of the greatest value to farmers and gardeners—a veritable encyclopedia of planting and farming knowledge. It contains more useful and practical information than many text books that are sold for a dollar or more, yet it will be mailed free to any one sending his name and address on a postal card to the firm.

Help a Deserving Young Man.

A. Hanson, one of the University students who, by the way, is a musician of more than local reputation, lost his set of clarionettes in the late fire at the University. He has always gladly volunteered his services in aid of any public affair where he could assist, and is ever ready to stand in for any good cause. With a view of helping Mr. Hanson to purchase a new set of instruments, it has been decided to give a grand musical and literary entertainment for his benefit at University Assembly Hall on the evening of January 11th, 1896. The admission will be placed at the low figure of 25 cents. A splendid program will be given, and besides enjoying a pleasant evening, every patron will be helping a deserving young man.

A Watch Meeting.

A watch meeting was held at the Methodist Church last night. The bell called the congregation together at about 9:30 p. m., and there was a good attendance. Prayer and song service, with a sermon by Rev. T. Magill and remarks by the Pastor, Rev. J. A. Bready, also testimony from members of the congregation occupied the evening until midnight, when the old bell announced the arrival of the year 1896, and all wished each other a happy and prosperous year.

At the Club House.

The regular Club dance was given at the Nevada Club House last night. There was a large attendance of the members and their invited guests. The old year was danced out and the new in. It was one of the most enjoyable of the Club's series of dances.

A GRAND OPPORTUNITY.

District Attorney Jones' Chance to Make a Reputation.

The Carson Appeal says U. S. District Attorney Jones has earned the admiration of the law-abiding citizens of the whole State by his able and indefatigable work in pressing the suits in behalf of the United States Government. When he began the task there were many reasons for assuming that he would fail and many predicted that he would. He had to pit his youth and inexperience against a banded combine stronger than any official in the discharge of his duties ever had to face before. He knew that he would have to fight the lavish use of money allied with men of long experience in jury bribing, and past masters in the arts of witness fixing and the thousand and one methods of obfuscation that has for years nullified the actions of courts in the State and rendered legal proceedings of any magnitude a stench and a by-word in Nevada.

"District Attorney Jones has the greatest opportunity of any man in the State to make a monumental reputation and he can rest assured that he has the whole law-abiding, decency-loving element in this State at his back and wishing him God speed in his work."

THE WASHOE COUNTY BANK

The New Institution Goes Into Business with \$200,000 Capital

The Washoe County Bank commences business to-morrow with nearly a quarter of a million capital, as successor to the First National Bank of Reno. The new bank has been incorporated under the laws of the State of Nevada. It will be conducted by those who have successfully managed the affairs of the late First National Bank for sixteen years, which is a sufficient guarantee that its business will be carefully attended to, as all are conversant with banking and its business details.

All persons holding the notes of the late First National Bank are requested to present the same for redemption. These notes are doubtless in circulation all over the United States, as there were \$45,000 in such notes issued by the bank. This will reduce the circulating medium of the country \$45,000, which is more than Mr. Reed's bond bill will put in circulation, as that only provides means for getting gold for shipment to Europe.

Success to the Washoe County Bank and may it have a prosperous year.

Congressman Newlands.

Hon. Francis G. Newlands will arrive here on Thursday morning's train from the East and will be pleased to meet and address the citizens at the Court House on the evening of that day. He comes direct from the National Capital and doubtless will tell much about public affairs that will be of interest. His time is limited and that is the only opportunity he will have to deliver a public address during his brief stay.

Those who think that he did not vote against Mr. Reed's bond bill can then ascertain from his own lips whether their surmises are correct.

An "Up to Date" Resort.

John Fitzgerald extends the compliments of the season and wishes every one a happy and prosperous year. He proposes to run the Arcade Saloon during the year 1896 in an "up to date" style, dispensing the latest mixed and fancy drinks, as well as the very best of straight goods. He will keep the very best of wines, liquors and cigars, and will fill an order at home or abroad on the shortest notice. Give John a call and he is sure to give satisfaction.

A Merry Birthday Party.

The little companions of Carrie, the youngest daughter of Mr. and Mrs. W. D. Phillips, were royally entertained at a birthday party yesterday. There was a large attendance of the young folks and Carrie proved herself a queen of entertainers. Games and music were the order and the afternoon was concluded with a splendid lunch. All wished the little hostess a happy new year and many returns of her birthday.

Newlands to Speak

Hon. Francis G. Newlands will address the citizens at a public meeting at the Court House.

THURSDAY EVENING, JAN. 24, At 7 o'clock. Mr. Newlands telegraphs that he will be pleased to meet and address the citizens on that occasion. Let the people turn out and hear what he has to say on public affairs.

Happy New Year!

This being the first day of the year and by law and custom a holiday, no paper will be published from this office to-morrow. Meantime the JOURNAL wishes each and every individual, not excepting gold bugs, whom it hopes will see the error of their ways, and endeavor to make amends for the injury they have done the country, a Happy New Year.

Change of Meeting Place.

The Woman's Relief Corps will meet at Masonic Hall next Thursday afternoon at 2 o'clock. The Corps have changed their place of meeting to the above named hall.

A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house, and his family have always found the very best results follow its use; that he would not be without it, if procurable. G. Dykeman, Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best Cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at S. J. Hodgkinson's, Drug Store. Regular size 50c. and \$1.00.

Lots of Talk.

About Parks' Cough Syrup is what we desire. Everyone who tries this remedy says that it has no equal in the cure of all diseases of the throat and lungs. We know it will cure any cold and do it in the shortest possible time. You don't know this, but you will agree with us if you only try one bottle of Parks' Cough Syrup. Sold by S. J. Hodgkinson.

My lady looks into the mirror

And her face it glows with delight, As she sees the vast improvement. Since she used Parks' Tea each night, She is never tired or weary, Her ill and her pains have fled; Since she drank of Parks' Tea each evening,

A cup full on going to bed. Sold by S. J. Hodgkinson.

The Modern Mother

Has found that her little ones are improved more by the pleasant laxative Syrup of Figs, when in need of the laxative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

An explosion of fire damp in the coal mines at Waldenburg, Prussian Silesia, killed or injured over fifty persons. Twenty-one bodies and twelve injured persons have been brought to the surface.

Tracking the Gantlope.

The following extracts give further information concerning this punishment: "In tracking the gantlope, the regiment was formed six deep, and the ranks spread and faced inward. Each man being furnished with a switch, the offender, naked to the waist, was led through the ranks, preceded by a sergeant, the point of whose reversed halbert was presented to his breast to prevent his running to fast. As he passed through the ranks, every soldier gave him a stroke."—Globe's "Military Antiquities," Volume 2, Page 108.

But the officer noticed I have seen in the "How at His Expedition with the Madras Light Infantry" (called "The Madras Light Infantry" by William Howard Russell, London, 1897).

"Other slight punishments were assigned for the candidates; as the long-pole, (running the gantlope); Swedish gantlope; to run through a hedge made of soldiers, when a soldier is stripped naked above the waist, and is made to run a furrow between 200 soldiers, ranged alike opposite to others, leaving a space in the midst for the soldier to run through, where his comrades whip him with small rods ordered and cut for the purpose by the commander (previously mentioned), and all were kept good order and discipline."

Tired Women

Need to have the action of the kidneys stimulated and the system toned up. Parks' Sure Cure is the best remedy to accomplish this. Many a woman finds that she is tired out when she ought not to be tired at all. She fears that her system is broken down and she is a hopeless invalid when a few doses of Parks' Sure Cure would make her look at life from a different point of view. Don't delay. Every bottle is guaranteed. Sold by S. J. Hodgkinson.

Notice to the Public.

Notice is hereby given to all whom it may concern that I will not be responsible for any bills incurred in working assessments on the White Horse Gypsum and extension of the gypsum mining claims in White Horse mining district, Washoe county, Nevada, except what is sufficient to hold my interest in said mining claims under the United States Statutes.

A Private Question Answered Publicly.

Every day I am asked the following question: "Mrs. Hunter, tell us honestly, do you think Viart as good as represented?" Yes, my friends, better! I have handled it over three years and each year my faith has grown stronger. If you want good health use it faithfully and you will not be disappointed. Mrs. B. F. HUNTER.

IN COLD WEATHER

The most effective method of preventing roughness, chapping and breaking of the skin is to use Cocoon Balm. A few applications will render the skin soft and smooth and it costs only 25 cents per bottle. It gives satisfaction to all who use it.

In the Royal Army

Considered Incurable by Garrison Physicians

But Perfectly Cured by Hood's Sarsaparilla.

"I was severely afflicted with Salt Rheum three years ago, when I was in the English army. I was in one of Her Majesty's garrison hospitals, and as four physicians could not cure me, I was discharged, and as soon as I was able I came to this country. On the voyage over we had a rough storm, and by a sudden roll of the ship I received a blow on my forehead which broke the flesh in one of the old places over the right eye, where there had been several running sores. The new sores increased in size and I was in a bad condition when we arrived. It would often nearly heal over, but each time break out fresh again. After being at this place some time, an acquaintance advised me to take Hood's Sarsaparilla. I bought a bottle and after a few doses I realized that it was benefiting my case. Gradually the sores healed and entirely disappeared. I took six bottles altogether and found that it had cured me, helped my indigestion, and given me new life. A. G. MORRIS, Green River, Wyoming. Hood's Sarsaparilla is sold by all druggists, \$1.00 per bottle. Prepared only by C. I. Hood & Co., Lowell, Mass."

Hood's Pills become the favorite cathartic with everyone who tries them, 25c. per box.

Prin. J. a King In Exile.

The Figaro gives, apropos of the Channel Islands, some interesting details of "an roi en exil," but of a king who never reigned and an exile who never wandered. The monarch in question is Prin. J. and the last of the Eborians. He reigned over the Eborians, a small group living to the northeast of Jersey. He had, however, only one subject, his wife, and perhaps that is more than all married men can say. The royal residence was in Blaque Hill, and here the king earned a narrow living, his revenue coming from a small, ruffled bandy and pigeon breeding. The pigeons he generally ate. A high tide from time to time invaded his kitchen, and also the throne-room, which was next to the kitchen.
He had his wife, Queen Phillips, and a despotic control and made her work in household avocations. One of her principal tasks must have been painting the royal wardrobe, as it is said that her graces majesty the Queen of England presented him with a vest some 20 years ago, and that he was still Queen Phillips then and her sister monarch with a piece of embroidery. Prin. J. had fallen upon evil days and is now an exile in the hospital at St. Heliers—Pull Mail Gazette.

All the Same.
"Have you any bouncers?" asked Tony Pippin, with an abstracted air, as he inserted his legs under a table in one of those quick dispatch restaurants in Park row.
The fluff-haired waitress glanced down at her plain black skirts, blushed laboriously and said:
"What was that you wanted?"
"Bouncers."
"How'll you have 'em—baked, boiled, shirred or bias?" the girl responded facetiously. She thought Mr. Pippin was given to repartee.
"I want them fried with bacon," Tony responded, with some severity. "Will you take my order?"
"Yes, if you call for anything on the bill. This ain't no Chinese laundry." Struck by a sudden fear, Mr. Pippin grabbed the thumb pointed menu, re-examined the oyster list for a moment and then said weakly:
"I made a mistake. It's scallops I want."—New York Journal.

Macedonia.
Macedonia, the land of the three streams, Vardar, Struma and Vistritsa, is located in the Balkan mountains, and is the best known of the highest of the Balkan mountains, Rhodope, the last named rising to between 8,000 and 9,000 feet above the level of the sea. It is among the most picturesque countries of Europe, abounding in magnificent forests, which climb hills, fringe rivers and cover islands in wild mountain areas, wonderful waterfalls, silent saltless lakes—an appropriate setting for some of the most beautiful scenery in the world. The mountains are deep, rugged, dizzy mountain paths, smiling plains and desolate passes, which ought to prove an irresistible attraction to the traveler who regards genuine danger and real discomfort as the appropriate condition of pleasure.—Contemporary Review.

A Testy Churchman.
The late Canon Harpur of Selby, in Yorkshire, had a certain oddity and originality, illustrated in one of his advertisements for a curate: "Wanted, by an incumbent, who means to do as his bishop bids him, a curate who means to do as his incumbent bids him—subject to the rule and law of the established church. His text the Bible, his commentary the prayer book. Daily service; weekly communion; good choir; very fine church. A earnest man, who can do without any pretensions, will find much work which wants doing, much room to deny himself, and a road to bring him." Address Rev. Canon Harpur, Selby.—London World.

GREAT BATTLES are continually going on in the human system. Hood's Sarsaparilla drives out disease and restores health.

The Most Curious Known Animal.
The most peculiar and remarkable animal in the world is the Ornithorhynchus paradoxus, the famed egg laying mammal of Australia. It is shaped like an otter, has fur like a beaver, is web footed like a swan, has a bill like a duck and a tail like that of a fox. It is the only known four covered creature that lays eggs. A corresponding oddity among feathered bipeds would be a bird that brought forth its young alive.—St. Louis Republic.

The Island of Tanna.
The volcanic island of Tanna, one of the New Hebrides group, has been for many years in a constant state of eruption, emitting a column of fire by night and smoke by day, which is clearly seen as a great distance. Such is the certainty with which this flame appears that vessels in the vicinity are instructed by their sailing directions to look out for it, lest as they would do were it an ordinary light-house.

The Fate of a Ground Owl That Had Taken Possession of Their Home.

Although the woodpecker is industrious, provident and peaceful, he is not to be trifled with or tyrannized over with impunity, as the following incident will show:

A companion and I on an August day pitched our camp at a spring on the table lands of the ridge dividing Ojal from Santa Clara valley. About the spring stands a large grove of live oaks. In one of these not far from the tent door a pair of woodpeckers had for years no doubt made their dwelling place. Somewhat shy of us at first, the birds in a few days paid little attention to our presence. It frequently amused us of a sultry afternoon as we lounged upon the buffalo robes laid on the shaded grass to observe the birds with whose labors the warmth appeared to have little to do.

We had camped there a week or ten days when before daylight one morning we heard a commotion about the home of our staid neighbors. Our attention was attracted by their shrill notes and the whirr of their wings among the branches overhead. It had no sooner grown light enough to see than we pushed back the flap of the tent door and peered out to ascertain the cause of disturbance.

It soon became apparent that a little tealote, or ground owl, at the approach of day had taken lodging in the hollow occupied by the woodpeckers, to their consternation. But the return of day brought courage to the rightful owners, and they resolutely set about flinging means to eject the invader. They tried bluffing awhile about the only aperture to the hollow tree, but to little purpose, other than to cause the tealote to peck at them when they appeared to be about to thrust themselves in.

At last, finding that neither threats nor entreaties were likely to be effective, and resolved that if they were to be deprived of their home it would be the last of that tyrannical owl, the woodpeckers brought presently from another part of the grove an oak ball of the size of the aperture, and driving it tightly into the hole, withdrew to another hollow tree, leaving the bird of prey hermetically sealed up.

After several days, when we started to return to San Buenaventura, the ball was still in the hole, and the woodpeckers, settled in their new home, were going about their business as if there had never been a tealote. —Portland Press.

Water on the Moon.
Astronomer Pickering of the Harvard observatory at Arequipa, Peru, has lately been making some interesting observations relative to the presence of water on the moon. A writer, quoting from a bulletin of the French Astronomical society, says that over 35 narrow ravines on the moon's surface have been catalogued, and these are all regarded as beds of rivers from their resemblance to terrestrial water courses. There is no reason to suppose that these formations contain water at the present time, but the observer argues that the presence of a certain degree of humidity on the surface of the great satellite seems probable. The observer affirms that no other satisfactory explanation than the existence of water or a partially thawed frozen region can account for the dark patches in the various craters or crevasses. That vegetation exists is not yet demonstrated, but the observers regard such a discovery as by no means unlikely. —Reno Scientific.

ASSIST NATURE

a little now and then in removing offending matter from the stomach and bowels and you thereby avoid a multitude of distressing derangements and diseases, and will have less frequent need of your doctor's service.

Of all known agents for this purpose, Dr. Pierce's Pleasant Pellets are the best. Once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity with sufferers from habitual constipation, piles and their attendant discomfort and manifold derangements. The "Pellets" are purely vegetable and perfectly harmless in any condition of the system. No care is required while using them; they do not interfere with the diet, habits or occupation, and produce no pain, gripping or shock to the system. They act in a mild, easy and natural way and there is no reaction afterward. Their help lasts.

The Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. In proof of their superior excellence, it can be truthfully said, that they are always adopted as a household remedy after the first trial. Put up in sealed, glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, or to relieve distress from over-eating, take one after dinner. They are tiny, sugar-coated granules; any child will readily take them.

Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.
